

Report Description/Data Source

This report counts admissions and days by group, region, level of care, and age group. All data pulled from VO claims.

Calculation Formulas:

1. Average Length of Stay: Days/Admissions
2. Admissions/1000 Lives: (Admissions/Avg Covered Lives) * 1000
3. Days/1000 Lives: (Days/Avg Covered Lives) * 1000
4. Life stage (Adolescent or Adult) is determined by the member's age at the beginning of the admission period. If a 17 year old was admitted to an adult LOC, but turned 18 during the admission period, the member would still be counted as adolescent for the entire admission period.

ATTESTATION:

I attest, based on my best knowledge, information and belief that the data and/or documents pertaining to Medicaid and the SAPT block grant comprising this report are accurate, complete, and truthful, as of the date of submission.
