

**Report Description/Data Source**

This report counts admissions and units by group, region, level of care, and age group. All data pulled from VO claims.

## Calculation Formulas:

1. Average Units per Admit: Units/Admissions
2. Life stage (Adolescent or Adult) is determined by the member's age at the beginning of the admission period. If a 17 year old was admitted to an adult LOC, but turned 18 during the admission period, the member would still be counted as adolescent for the entire admission period.

## ATTESTATION:

I attest, based on my best knowledge, information and belief that the data and/or documents pertaining to Medicaid and the SAPT block grant comprising this report are accurate, complete, and truthful, as of the date of submission.
