- Admission of pregnant women into Designated Women's Facilities has increased from 15.6% during FY 2010 to 23.9% during FY 2015.

Preliminary Recommendations to Committee:

- It is recommended to the Committee that data trending continue and reporting on all objectives be included in this report. Trending should continue to contain year to year (YTY) comparisons.
- It is further recommended that this aggregate analysis and the ValueOptions report be posted on the ValueOptions website.

Date Presented to QC: 10/15/15
