

**Report Description/Data Source**

This report counts admissions and days by group, region, level of care, and age group. All data pulled from VO claims.

## Calculation Formulas:

1. Average Length of Stay: Days/Admissions
2. Admissions/1000 Lives:  $(\text{Admissions}/\text{Avg Covered Lives}) * 1000$
3. Days/1000 Lives:  $(\text{Days}/\text{Avg Covered Lives}) * 1000$
4. Regions are determined using the member's region code at time of service. Members who were not mapped to a valid region at time of service are reported in the "Other" region.
5. Life stage (Adolescent or Adult) is determined by the member's age at the beginning of the admission period. If a 17 year old was admitted to an adult LOC, but turned 18 during the admission period, the member would still be counted as adolescent for the entire admission period.

## ATTESTATION:

I attest, based on my best knowledge, information and belief that the data and/or documents pertaining to Medicaid and the SAPT block grant comprising this report are accurate, complete, and truthful, as of the date of submission.

11/08/2011

CEO, ValueOptions of Kansas
